•								ck coat of NO VOC NON-TOXIC Seal Once Waterproofer. Douglass Fir is #2&BTR Rough Cut KD DF with a moisture content									
	less than 15%. Cedar is Rough Cut KD STK with a moisture content less than 15%. Customer is responsible to ensure the moisture content is acclimated for local conditions prior to installation. Timbers are DF #1Btr KD to less than 19%.																
		/isit www.MontanaTimberProducts.com for Resources and Frequently Asked Questions. Among the documents provided on the website: Product Specifications, Installation and Acclimation Guidelines, and Limited Warranty.													\$	3,475.00	
Random Lengths (RL)		ase pricing on all MTP 1" and 2" siding and trim material is sold Random Length (RL). At least 90% of RL lines will tally between 8' - 20' length, with less than 10% of the line tallying between 4'-8' lengths. arget lengths can be noted and MTP will attempt to tally heavier in the targeted lengths. There are absolutely no guarantees of any specific length for RL line items.												Total Due \$		94,885.00	
Exact Lengths (EL)	-	act Lengths may be ordered with additional pricing and lead times to reflect the request. Pricing adjustments will be as reflected on this quote. Lead times may increase by 2-4 weeks on top of the standard lead time, depending on the specific request of led material will be guaranteed to meet the EL request with 90% accuracy on lengths and square edge material will meet to 95% accuracy on lengths.															
Delivery & Unloading		obsite needs to accomodate a semi and 48' flatbed. Customer is responsible for having a forklift onsite to unload material; most packages weigh over 2,000 lbs, hand-unloading is not an option. Customer must make other arrangements to receive naterial if your site cannot accomodate these receiving instructions.															
		ne production schedule starts upon MTP receiving both a signed confirmation and initial payment. After production schedule starts, allow 3-5 weeks for delivery on standard Doug Fir orders. Orders with timbers and orders with cedar may require more me, and will likely require 4-6 weeks.															
Order Confirmation		stomer is responsible for reviewing and providing written confirmation for accuracy of material quantities and product descriptions. All orders are custom made-to-order and once an approved order has been produced it cannot be returned (some ceptions may be granted with a 25% re-stocking fee).															
Payment Schedule		yment is required in full to start production on all orders less than \$15,000. For orders greater than \$15,000; a 50% deposit is due to start the order and the balance is due in full before the product can be placed on the freight schedule. Allow a nimum of 5 business days for material to load after the order has been placed on the freight schedule. Customer is responsible to pay timely final payment in order to keep the material delivered on schedule.															
•		paying by credit card a 2 1/2% transaction fee will apply. A Sales Invoice will be generated upon receipt of order confirmation. Unless otherwise quoted, all orders are priced as delivered to the jobsite. Quotes are good for 30 days and may be requoted adjusted at the discretion of Montana Timber Products. Customer is responsible for direct payment of any applicable sales and use taxes to state or local governments.
