

## PAINTED HEAD EXTERIOR SCREWS

HEADCOTE® Stainless Steel  
Screws with Color Coated Heads

### Key Features:

- Grade 305 and Marine Grade 316 stainless steel for superior corrosion resistance
- Lengths from 1-5/8" to 3"
- Reinforced flat or trim head with nibs for better countersinking
- Extra deep star drive recesses to prevent cam-out
- Type 17 auger tips for faster, easier insertion and to help prevent splitting
- Approved for use in ACQ and other pressure treated lumber
- Wide variety of colors to closely align with MTP stains
